

IoT Command Center

Zingbox IoT Command Center is an IoT lifecycle management solution that automates the orchestration of the IoT lifecycle to provide security, management and optimization of all assets. At the heart of IoT Command Center is Zingbox IoT Guardian that uses a unique, IoT personality-based approach to secure and manage IoT devices throughout their entire lifecycles, from discovery through retirement. It allows customers to automate threat detection and response for their IT and IoT infrastructures from a single system. Zingbox IoT Command Center consists of Zingbox IoT Guardian platform and Zingbox Inspector.

Zingbox IoT Guardian Platform

IoT Guardian Discovery

- Device discovery, identification, classification, and grouping
- UI console to manage Inspectors and IoT data in the Zingbox Cloud

IoT Guardian Security

- IoT Guardian Discovery capabilities, plus:*
- Risk assessment and threat detection
 - Visibility into network behavior

IoT Guardian Insights

- IoT Guardian Security capabilities, plus:*
- Optimization intelligence and utilization reporting

IoT Guardian Vigil

- Security Operations Center (SOC) dashboard to track security events

Zingbox Inspectors (sensors)

Hardware appliance

- | | |
|----------|---|
| Starter | Max 500 IoT devices,
100 Mbps bandwidth |
| Minimum | Max 1000 IoT devices,
500 Mbps bandwidth |
| Standard | Max 5000 IoT devices,
1 Gbps bandwidth |
| Advanced | Max 10,000 IoT devices,
5 Gbps bandwidth |

Virtual appliance

- .ova image for VMware Fusion, VMware Workstation, VMware ESXi, and VirtualBox
- .iso image for installation on a bare metal server

Integrations

- | | | | |
|------------------------|---|---------------------------|------------------------------|
| Asset management | Security information and event management | Managed security services | Wireless network controllers |
| Network access control | Security automation and orchestration | Vulnerability scanning | Firewall |
| Network management | | | |

Services

Support

Three levels of technical support with varying response times based on operational impact; 9:00 AM to 5:00 PM (PST) business days

Training

Customized onsite product training charged on a per-student basis

Professional Services

Assistance with product deployment, forensic analysis, and managed security services
